EXTREME

LA RIVOLUZIONE:
la vetrina gelato con le qualità
di un pozzetto a glicole

THE REVOLUTION:
THE GELATO DISPLAY CASE WITH THE QUALITIES
OF A GLYCOL POZZETTO COUNTER

Dalla continua ricerca ed
evoluzione BRX nasce il primo
**BANCO POZZETTI A GLICOLE
CON CARAPINE QUADRATE**

FROM BRX'S TIRELESS RESEARCH AND EVOLUTION,
ANNOUNCING THE FIRST GLYCOL POZZETTI COUNTER
WITH SQUARE CARAPINA TUBS

Una assoluta novità
progettata, prodotta e
brevettata da BRX

A COMPLETELY NEW CONCEPT, DESIGNED,
PRODUCED AND PATENTED BY BRX

 **25x25**

GRANDE RISPARMIO ENERGETICO

grazie alla tecnologia
innovativa e alla qualità
costruttiva dei banchi a
pozzetti glicole BRX

PERCHÉ SCEGLIERE Vista

REASONS FOR CHOOSING VISTA

- LA VETRINA GELATO CON LE QUALITÀ DI UN POZZETTO A GLICOLE
- FUNGE DA CONSERVATORE
- FORTE RISPARMIO ENERGETICO
- PIÙ GELATO A DISPOSIZIONE GRAZIE ALLA CARAPINA DI RISERVA
- MENO ORE DI LAVORO PER IL GELATIERE, IL GELATO RIMANE IN VETRINA
- THE GELATO DISPLAY CASE WITH THE QUALITIES OF A GLYCOL POZZETTO COUNTER
- ACTS AS STORAGE FREEZER
- MASSIVE ENERGY SAVING
- MORE GELATO AVAILABLE THANKS TO SPARE PAN
- LESS WORK REQUIRED AS ICE-CREAM STAYS IN THE DISPLAY CASE

BRX

“Vetrina rivoluzionaria”

Come funziona:

“Revolutionary Display Case”
Operating method

GRANDE RISPARMIO ENERGETICO

grazie alla qualità costruttiva e alla tecnologia innovativa dei banchi a pozzetti glicole BRX

FANTASTIC ENERGY SAVING

thanks to the construction quality and innovative technology of BRX glycol pozzetti counters

Massima flessibilità di utilizzo

UNBEATABLE OPERATING FLEXIBILITY

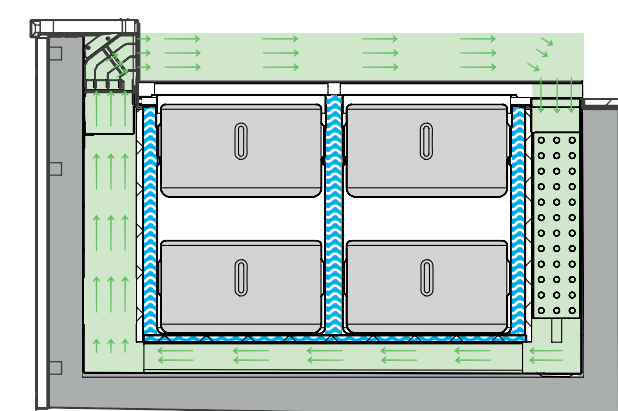

1

DOPPIA TECNOLOGIA DI REFRIGERAZIONE

La combinazione tra refrigerazione a glicole tipica dei pozzetti e refrigerazione ventilata consente l'utilizzo del banco senza coperchi e di conseguenza il gelato è visibile.

DUAL REFRIGERATION TECHNOLOGY

The combination of typical pozzetto glycol refrigeration with ventilated refrigeration means the counter can be used without lids, with the ice-cream on view.

2

TRASFORMABILE FACILMENTE IN BANCO PASTICCERIA

Vista gelato può essere convertita in un banco pasticceria anche nell'arco della stessa giornata, utilizzando gli appositi vassoi espositivi in modalità notte.

EASILY CONVERTS TO PASTRY COUNTER

Gelato Vista can be converted into a pastry counter even on the same day, using the special display trays in evening mode.

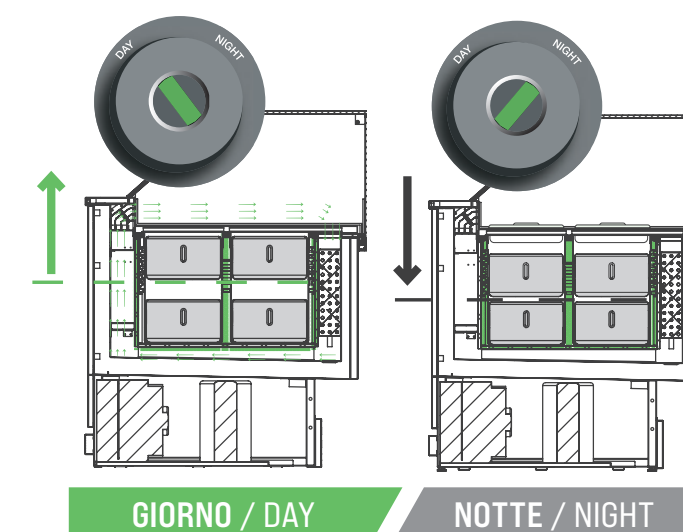

NIENTE PIÙ TRASFERIMENTI DI GELATO

Grazie a due tecnologie di refrigerazione di giorno l'esposizione è senza coperchi, di notte le carapine si abbassano per la conservazione.

NO MORE MOVING ICE-CREAM AROUND

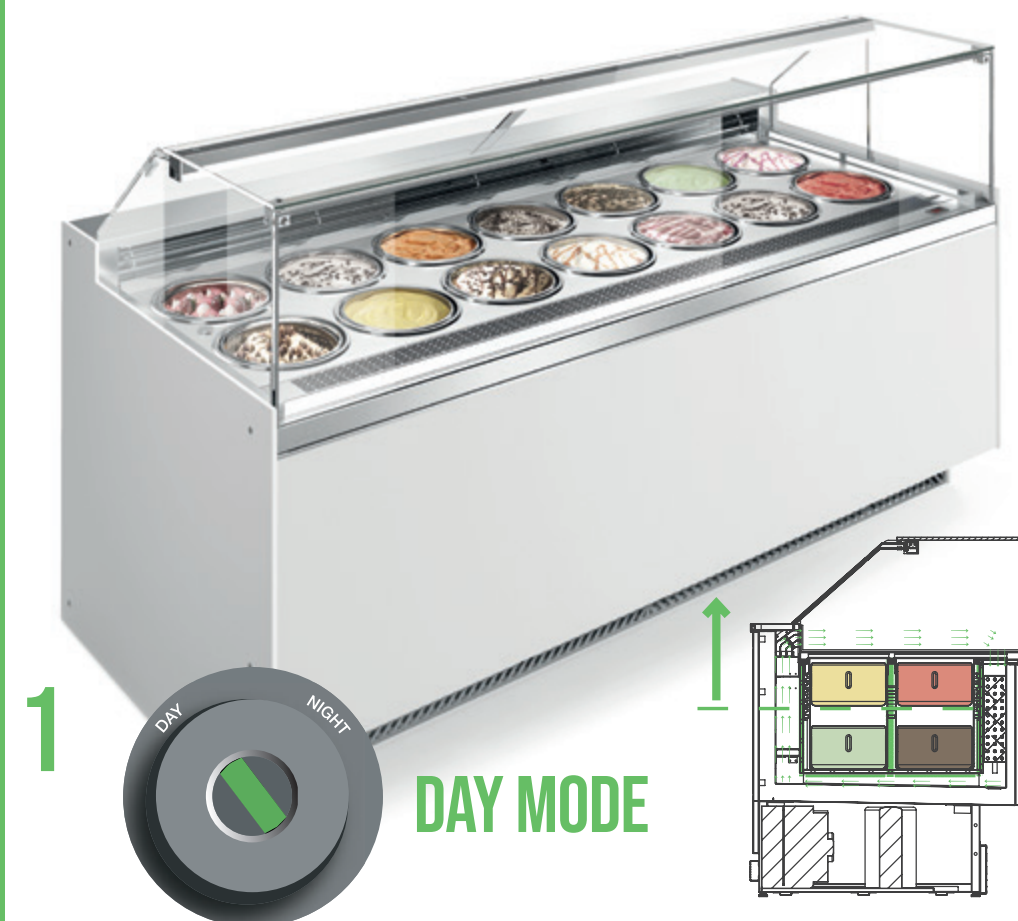

Thanks to the dual refrigeration technology, ice-cream is displayed in the daytime without lids; at night the pans are lowered for storage.

3

Massima flessibilità di utilizzo

UNBEATABLE OPERATING FLEXIBILITY

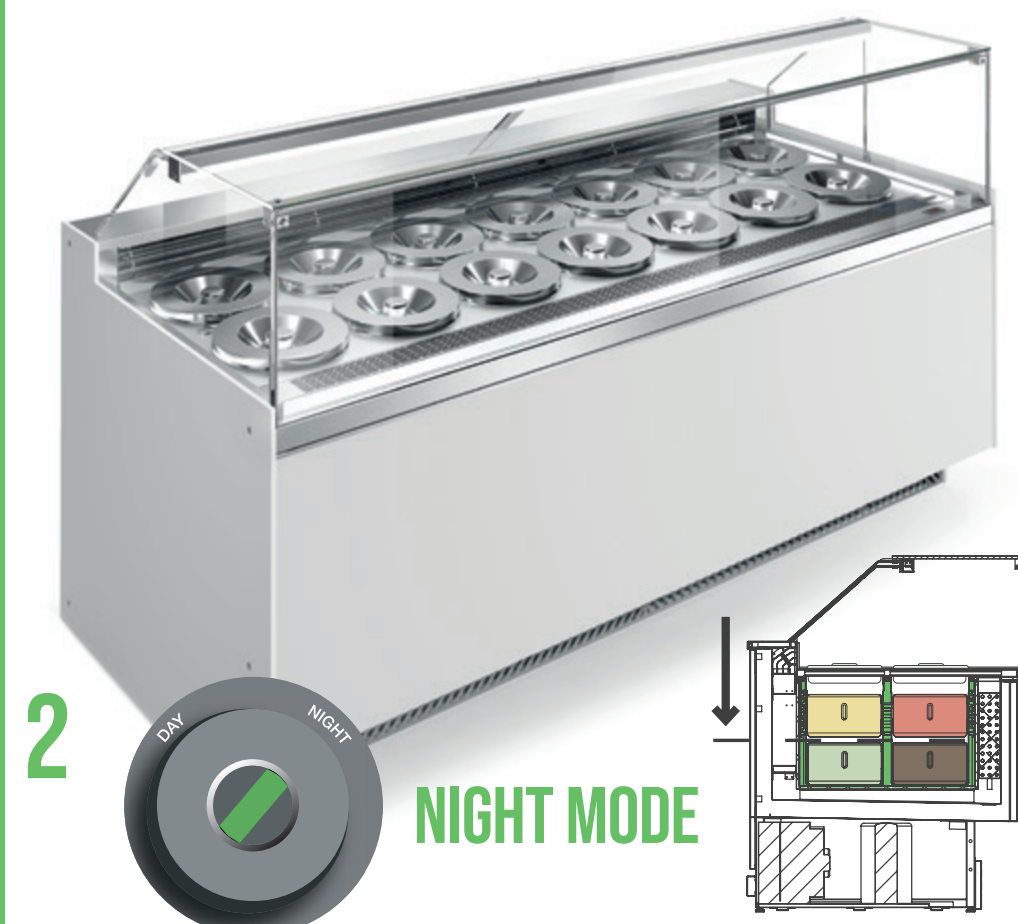

1 IL GELATO È VISIBILE ED È ESPOSTO A FILO PIANO

La Carapina è esposta a filo piano. la combinazione fra refrigerazione a glicole in vasca e una leggera ventilazione in superficie crea una temperatura ottimale per la vendita del gelato.

1 THE GELATO IS VISIBLE, DISPLAYED LEVEL WITH THE TOP

The carapina pan is displayed level with the top.
The combination of glycol refrigeration in the well and light ventilation on the surface creates the ideal temperature for sale of gelato.

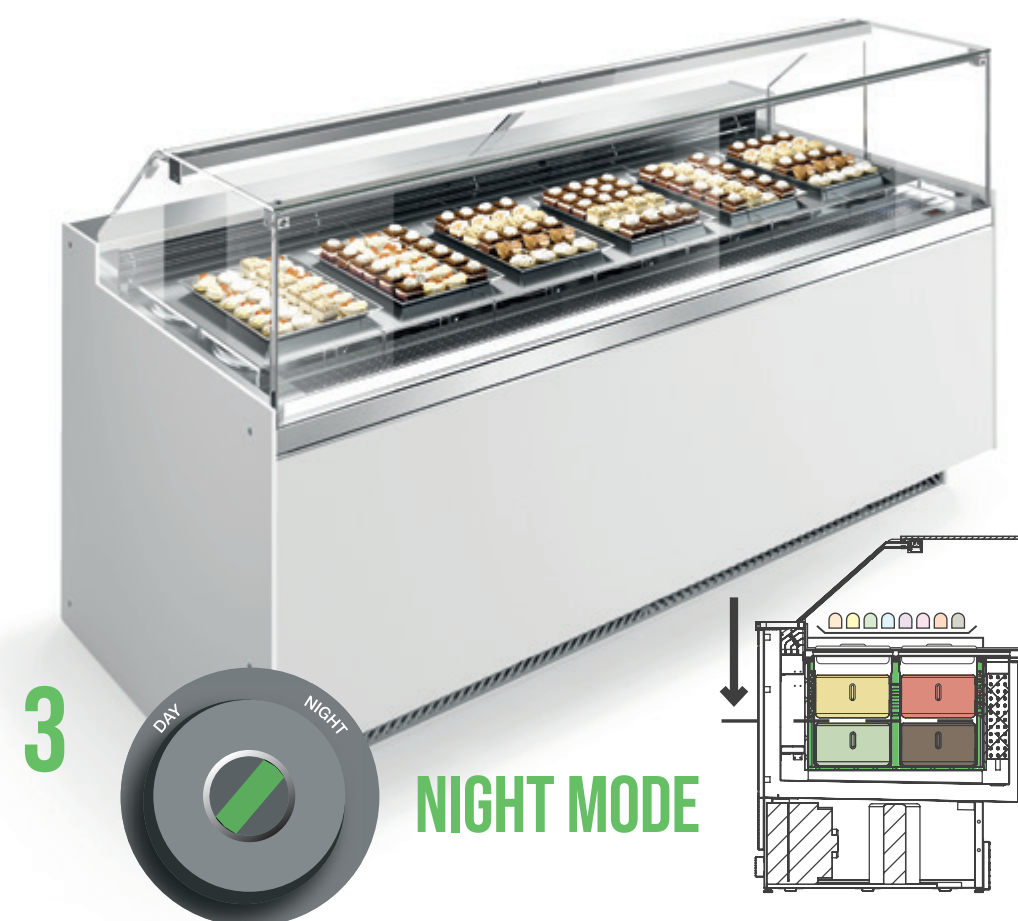

2 NIENTE PIU' ARMADI DI CONSERVAZIONE

La carapina si abbassa e si chiude con apposito coperchio. Il glicole garantisce la perfetta conservazione del gelato con un consumo incredibilmente basso. Una ventilazione a temperatura positiva continua a circolare.

2 NO MORE STORAGE FREEZERS

The carapina pan is lowered and closed with its lid.
The glycol ensures perfect conservation of the gelato with incredibly low energy use.
Continuous, circular positive-temperature ventilation.

3 TRASFORMABILE IN VETRINA PASTICCERIA TN

Inserendo gli appositi vassoi sopra i coperchi delle carapine si espone la pasticceria.

La temperatura tn in superficie permette di esporre comodamente i prodotti mentre il gelato nelle carapine all'interno della vasca è perfettamente conservato.

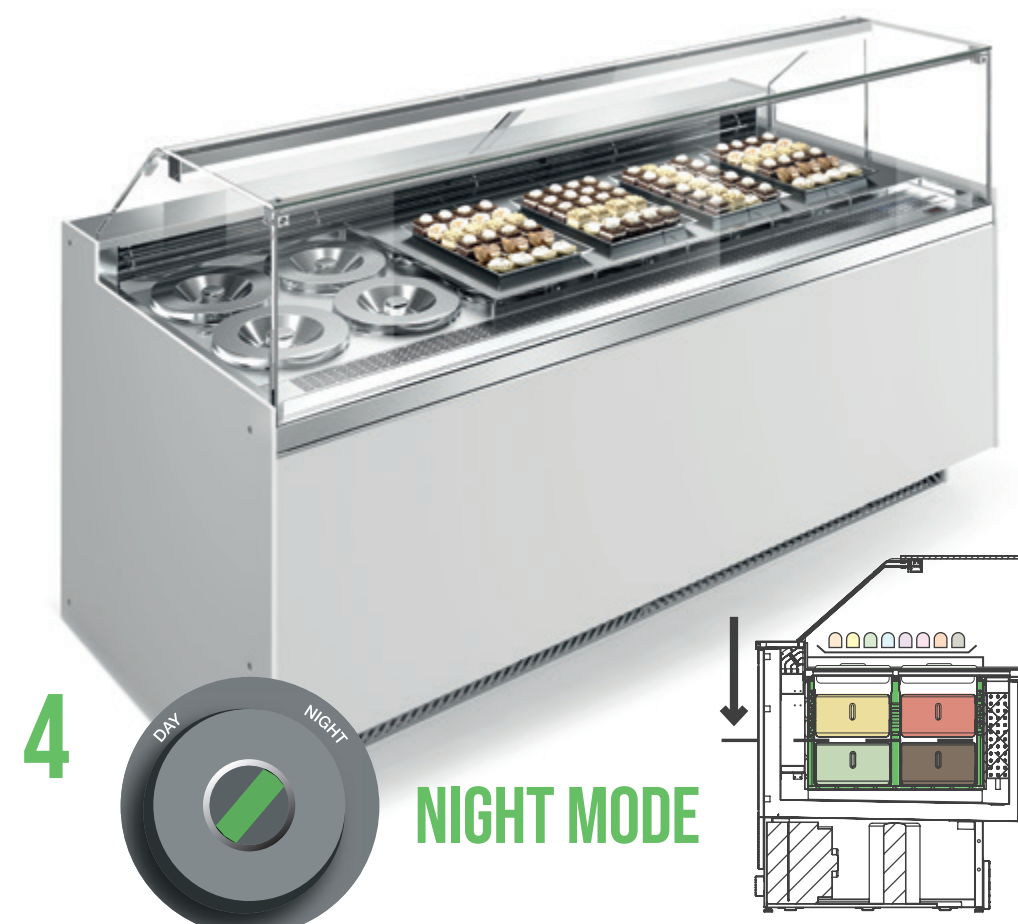

La conversione da vendita gelato a pasticceria si effettua velocemente.

3 CONVERSION TO NEUTRAL PASTRY DISPLAY CASE

Pastries can be displayed by fitting the trays provided on top of the carapina pan lids.

The neutral surface temperature is just right for displaying these products, while the gelato in the carapina pans in the tub is conserved to perfection.

Conversion from sale of ice-cream to pastries can be done quickly.

4 CONSERVAZIONE, SERVIZIO GELATO E PASTICCERIA. TUTTO CONTEMPORANEAMENTE

L' unica vetrina al mondo che permette di servire gelato e prodotti a temperatura positiva contemporaneamente.

4 STORAGE AND SERVING OF GELATO AND PASTRIES. BOTH AT THE SAME TIME.

The world's only display case that can serve gelato and positive-temperature products at the same time.

VETRINA A BASSI CONSUMI

inoltre evita l'utilizzo di
ARMADI DI CONSERVAZIONE

**ENERGY-SAVING DISPLAY CASE THAT ALSO ELIMINATES
THE NEED FOR STORAGE FREEZERS**

LA SINERGIA TRA REFRIGERAZIONE A GLICOLE +
VENTILATA E LA QUALITÀ COSTRUTTIVA DELLA
VETRINA CONSENTE UN'IMPORTANTE RIDUZIONE DEI
CONSUMI

THE COMBINATION OF GLYCOL + VENTILATED REFRIGERATION
AND THE DISPLAY CASE'S CONSTRUCTION QUALITY DELIVERS
IMPRESSIVE ENERGY SAVINGS

LA VETRINA VISTA, 225 CM
CONTIENE 28 CARAPINE DA 7 LT.

THE 225 CM VISTA DISPLAY CASE
CONTAINS 28 X 7L CARAPINA PANS

NON È PIÙ NECESSARIO L'ARMADIO REFRIGERATO,
RISPARMIO AL 100% DELLA ENERGIA ELETTRICA RELATIVA
E DEI FATICOSI TRASFERIMENTI DEL GELATO
STORAGE FREEZER IS NO LONGER NEEDED, SAVING 100%
OF ITS ELECTRICITY USE, WITH NO MORE HANDLING OF
HEAVY GELATO

LA QUALITÀ DEL GELATO

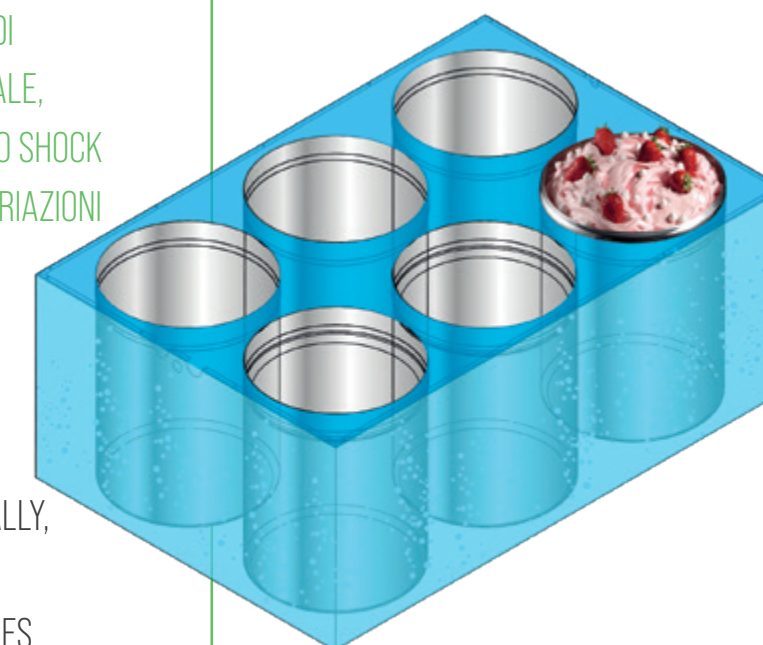

viene garantita dalla perfetta sinergia tra
refrigerazione a glicole e una leggera ventilazione

**THE QUALITY OF THE GELATO IS ENSURED BY THE PERFECT SYNERGY
BETWEEN GLYCOL REFRIGERATION AND GENTLE VENTILATION.**

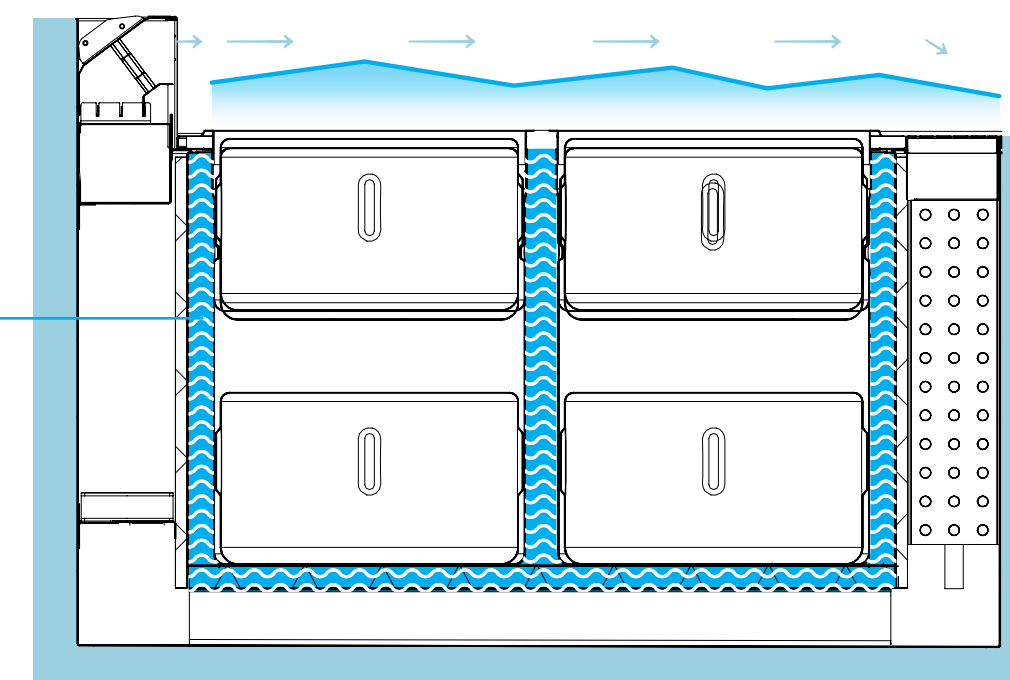

LA VASCA CON GLICOLE, GRAZIE ALLA SUA CAPACITÀ DI
ACCUMULARE E RILASCIARE FREDDO IN MODO GRADUALE,
ASSICURA UNA TEMPERATURA STABILE RIDUCENDO LO SHOCK
TERMICO DEI CICLI DI SBRINAMENTO, LIMITANDO LE VARIAZIONI
DI TEMPERATURA ALL'INTERNO DELLA VETRINA.
DI NOTTE, ABBASSANDO LE CARAPINE, SI TRASFORMA
IN UN SISTEMA DI CONSERVAZIONE IDEALE.

SINCE IT ACCUMULATES AND RELEASES COLD GRADUALLY,
THE **GLYCOL TUB ENSURES A STABLE TEMPERATURE**,
REDUCING THE THERMAL SHOCK OF DEFROSTING CYCLES
AND RESTRICTING TEMPERATURE FLUCTUATIONS INSIDE THE
DISPLAY CASE.
AT NIGHT, WHEN THE CARAPINA PANS ARE LOWERED,
IT BECOMES AN IDEAL STORAGE SYSTEM.
